CBSE CLASS 10 WORKSHEET
GEOGRAPHY – CHAPTER 4: AGRICULTURE

Time Allowed: 1.5 Hours | Maximum Marks: 40

Student Name: _____ **Roll No: _____**

SECTION A: MULTIPLE CHOICE QUESTIONS (1 Mark Each)

1. Which of the following describes a system of agriculture where a single crop is grown on a large area?

(a) Shifting Agriculture (b) Plantation Agriculture (c) Intensive Subsistence (d) Primitive Subsistence

2. Which of the following is a leguminous crop?

(a) Pulses (b) Millets (c) Jowar (d) Sesamum

3. 'Slash and burn' agriculture is known as 'Jhumming' in which part of India?

(a) Western Ghats (b) South-Eastern Rajasthan (c) North-Eastern States (d) Madhya Pradesh

4. Which variety of coffee was initially brought from Yemen and is grown in India?

(a) Robusta (b) Liberica (c) Arabica (d) Excelsa

5. Which crop is known as the 'Golden Fibre' of India?

(a) Cotton (b) Silk (c) Hemp (d) Jute

6. Rearing of silkworms for the production of silk fibre is known as:

(a) Sericulture (b) Pisciculture (c) Viticulture (d) Horticulture

7. Which of the following is a major Zaid crop?

(a) Wheat (b) Watermelon (c) Rice (d) Mustard

8. Which country is the largest producer of pulses in the world?

(a) China (b) India (c) USA (d) Brazil

9. Rice is a commercial crop in Punjab and Haryana, but in which state is it a subsistence crop?

(a) Odisha (b) West Bengal (c) Uttar Pradesh (d) Tamil Nadu

10. Muscular force, family labour, and primitive tools like hoe and dao are characteristic features of:

(a) Intensive Subsistence Farming (b) Commercial Farming (c) Plantation Agriculture (d) Primitive Subsistence Farming

SECTION B: VERY SHORT ANSWER QUESTIONS (1 Mark Each)

11. Name the two major beverage crops grown in India.

12. What geographical element is required naturally to restore soil fertility in shifting cultivation?

13. Name the key institutional reform scheme launched by the government to provide easy credit to farmers.

14. What are the three cropping seasons of India?

15. Name the movement started by Vinoba Bhave which is also known as the 'Bloodless Revolution'.

16. Which pulse crop can be grown in both Rabi and Kharif seasons?

17. Define the term 'Horticulture'.

SECTION C: SHORT ANSWER QUESTIONS (3 Marks Each)

18. Distinguish between Primitive Subsistence Farming and Intensive Subsistence Farming with any three points.

19. Mention any three main features of a 'Rabi' crop season in India.

20. Why are pulses mostly grown as a rotation crop? Give two reasons.

21. Describe any three major problems or challenges currently faced by Indian farmers.

22. State the key geographical conditions required for the successful cultivation of Maize.

23. Describe the main characteristics of Plantation Agriculture.

SECTION D: LONG ANSWER QUESTIONS (5 Marks Each)

24. Explain the geographical conditions (temperature, rainfall, and soil) required for the growth of Rice.

25. What institutional and technological reforms have been introduced by the Government of India in the interest of farmers?

26. Discuss the impact of globalisation on Indian agriculture.

27. Differentiate between Rabi and Kharif cropping seasons by giving five clear points of comparison along with crop examples.

SECTION E: CASE-BASED / ASSERTION-REASON QUESTIONS

28. Assertion (A): India is the largest producer as well as the consumer of pulses in the world.
Reason (R): Pulses are the major source of protein in a vegetarian diet and need less moisture to survive.
Options:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

29. Read the passage and answer: 'All the produce of a plantation is used as a raw material in respective industries. In India, tea, coffee, rubber, sugarcane, and banana are important plantation crops. Since the production is mainly for market, a well-developed network of transport and communication connecting the plantation areas, processing industries, and markets plays an important role.'
Question: Why is a robust transport network vital for plantation agriculture?

30. Map Based Question: On an outline map of India, identify and mark:
(a) The leading state in the production of Sugarcane.
(b) A major Tea producing state in Northeast India.
